Features

- Activates Apple CarPlay®, Android Auto, and MirrorLink™ on Mercedes Benz vehicles with **Comand Online and Audio 20 NTG5.1 systems.**
- No need to remove the radio.
- Allows access of CarPlay, Android Auto and MirrorLink by the passenger at any time while vehicle is in motion.
- No Dealer programming required.

Notes

- Vehicle must have a compatible Media Box (USB Hub) with phone icon.
- Compatible with **Audio 20** systems in vehicles with a production date of 12/15 or later. Vehicles with a production date of 11/15 or earlier will need a firmware update at the dealership prior to using the CAPMB-51.

Parts Included

Installation Instructions

1. Locate OBD-port and remove cover.
2. Turn on ignition to ACC.
3. Wait until the headunit has completely booted.
4. Plug the CAPMB-51 into OBD port.
5. Leave the CAPMB-51 for about 30 seconds or until you see a solid Green LED. The headunit will reboot.
6. Remove the CAPMB-51 from the OBD port.
7. **Keep the CAPMB-51 in a safe location in case there is ever a need to recode the headunit.**

To reverse the coding, repeat steps 1-6.

Note: After the first use on a vehicle, the CAPMB-51 is personalized to this vehicle (head-unit) and can be used unlimited times to code or reverse coding ONLY on this vehicle.

LED Information:

LED	Status	Description
Green	Solid	Coding procedure successfully completed
	Flashing	Coding process in progress
Red	Solid	Remove coding procedure successfully completed
	Flashing	Coding process failed / license violation
Green + Red	Solid	CAN Communication Error! - Abort coding session

After the headunit is coded, plug in the appropriate phone cable into the USB port (with the phone icon) in the center console. Use the Comand knob to go “TEL/☎” icon and select the desired App.

Android Auto

Apple CarPlay

MirrorLink
